HEMUJI CHANDELE COLLEGE SHELGAON (R)

Tal. Barshi, Dist. Solapur

IPR CELL

The Intellectual Property Rights (IPR) cell is focused to recognized the importance of intellectual property by its teachers and students. The cell encourages the creativity and innovations of its people which lead to generation of intellectual property (IP). The cell is committed to support and guide the students and staff in protecting their innovative and creative ideas.

The cell understands the growing significance of IPR in business and research. The IP reasoning encourages innovations without fear of a competitor, who may steal the idea or take the credit for it. So, the cell conducts awareness seminars and workshops to advice and guides the students and faculty on the importance of IP .

The IPR cell at Hemuji Chandele College, Shelgaon R was established in 12 August 2022 by Principal and Staff members.

- *Vision*

Promote, preserve, encourage and facilitate innovations and research. The vision of IPR Cell is to be source of new ideas and innovations.

- *Mission*

To create an environment which delivers innovative ideas, conduct research and facilitate resources for development of intellectual property.

- *Objectives*

- To create an awareness about IPR for faculties and students of the

institution.

- To conduct workshops, seminars and training programme on IPR .
- To coordinate between inventors, IP consultants for filing and managing patents.
- To educate the faculty on obtaining copyrights for their publication.
- To provide awareness to public through IP road shows, street plays.

Subject : **Request to modify the budget for incubation centre.**

Respected Sir,

I am writing this letter formally to request a revision to the approved budget. The B.Sc (Department of Physics, Chemistry, Microbiology,)requires this rvision to keep the budget for incubation centre by which our students promote to research attitude and in future they will be capable of doing any research in various fields. This will allow us to order the instruments for required project and research in graduation level.Please find attatched the specific line item budget revisions.

As the research or projects in this field are time sensitive, we will appreciate a response at your earlier convenience. You can contact the departments if you have more questions regarding this request.

Thank you for your time and consideration.

Sincerely,

Dindore P.A.(Department of Physics)

Bachute R.S.(Department of Chemistry)

Tambat R.B.(Department of Microbiology)

3.2.1. Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge (patents filed, published, incubation center facilities in the HEI to be considered)

The institute has created an ecosystem for Research and Innovation by allotting responsibility to the faculty members and taking initiative for construction and propagation of knowledge as well as providing one room for establishing preliminary infrastructure facilities required for innovation and incubation centre. Under the supervision and guidance of CDC and IQAC two bodies as Innovation / Incubation Cell and Research Committee are engaged in creating an ecosystem for innovation. Those facilities are impossible to provide by the institution are fulfilled with the support from MOUs and Linkages. At the beginning of every academic year institute decide its strategic planning and consider the budget required for the research, innovation, incubation and entrepreneurship practices. Though innovation and incubation cell's activities are preliminary these are functional in nature. To motivate the students with respect to innovation 'Business Idea Presentation Competition' has been conducted after identification of problems obtained from nearby community survey. The visits has been arranged to acquire information from first generation entrepreneurs related to knowledge, skills, problems, finance, human resource, marketing, land and infrastructure required for doing successful business.

Guest lecture, seminar and workshop have been arranged with respect to IPR, research and entrepreneurship to divert students from job and show interest in business. We are 'job provider not a job seeker' this is the motto of innovation and incubation cell. Students are encouraged to take personal interview of first generation entrepreneur and write the case study report or story based on interview. With help of incubation centre of PAH Solapur University and various information leaflets related to courses offered and subsidized schemes were collected and circulated in the nearby community for acquiring financial grants from govt. agencies. Various govt. schemes have been launched by central and state government under the 'Make in India' and 'StartUp India' projects. The information related to such schemes has been collected and leaflets prepared for the circulation among the students and nearby society.

All the faculty members and students are encouraged to do innovation and file the patents or take geographical indications for specialty in nearby villages. Those students like to convert their innovation into business college has given assurance to assistant for various permissions required for starting the business. All the students will be motivated for knowing trade secrets, trade mark, industrial design, and industrial processes etc. which are required for maintaining ownership or royalty of innovative entrepreneurship ideas. Research committee of the college inspired all faculty members and also changed way of thinking with respect to research. Initiation of research is found in the formal research hence all faculty members are advised to apply for Ph.D. entrance examination and pursue admission for the said program. In this way research output of the college will be enhanced in the form of research publications, book or book chapter publication, article writing, review paper publication, attending conferences and presenting abstracts or paper or article as oral presentation or publication in the souvenir.College has created an innovation cell and IPR cell for promoting research and IPR importance.The college has also given budget plan for

incubation centre.various activities are held thoroughly this cell like ozone day celebration.
